Durgapur, West Bengal
Contact No.: 9647972271,7908236353

Career Summary:

Transportation Engineer with 1+ year of experience in traffic analysis, transport demand forecasting, feasibility studies, and urban mobility planning. Worked on metro, elevated road, MRT, and economic corridor projects for clients including Chennai Metro Rail Limited, Delhi Metro Rail Corporation, Jaipur Development Authority, and Odisha Bridge and Construction Corporation. Skilled in VISUM, VISSIM, AutoCAD, QGIS, Excel, and Python for traffic surveys, modelling, technical reporting, and planning analysis. Currently pursuing a PhD in Transportation Engineering at IIT Kharagpur, with a strong interest in sustainable and data-driven mobility solutions.

Core Skills: -

- **Transport Planning & Modelling:** VISUM, VISSIM, Transport demand forecasting, Traffic simulation, Trip assignment, Feasibility studies,Network Analysis
- **Traffic & Mobility Analysis:** Traffic surveys, Traffic volume analysis, Travel demand assessment
- **Design & GIS:** AutoCAD, Civil 3D, QGIS
- **Data & Programming:** Excel, Python, NumPy, Pandas, Matplotlib,YOLO
- **Standards & Codes:** IRC Codes, MoRTH Guidelines
- **Professional:** Stakeholder coordination, Technical reporting, Client presentations, Survey supervision

Professional Experience:

Assystem India Limited

Engineer – Traffic Engineer / Transport Planner | Jul 2023 – Sep 2024

- Supported feasibility and pre-feasibility studies for metro, elevated road, and economic corridor projects across Chennai, Jaipur, and Bhubaneswar.
- Analyzed traffic survey data, interpreted field observations, and contributed to technical reporting and project documentation.
- Performed transport demand forecasting and network modelling using VISUM for urban transport planning studies.
- Monitored topographic and traffic surveys and contributed to alignment evaluation and site assessment activities.
- Coordinated with clients and stakeholders, presented technical findings and supported review of planning proposals during project evaluation stages

Selected Project Experience

Feasibility Study for Introduction of Air-Conditioned Coaches in Chennai Suburban Line Chennai, Tamil Nadu | 2023

Client: Chennai Metro Rail Limited

- Monitored traffic and topographic surveys to support feasibility assessment for suburban rail system improvement.
- Analyzed traffic survey data and performed traffic calculations for project evaluation.
- Prepared technical inputs and documentation for the feasibility report.

Pre-Feasibility Report for Elevated Road from Teela No. 7 to Rotary Circle, Jawahar Nagar Bypass Jaipur, Rajasthan | 2023
Client: Jaipur Development Authority

- Analyzed traffic survey data and carried out traffic calculations for elevated road pre-feasibility assessment.
- Supported pre-feasibility report preparation through data interpretation and technical documentation.

Master Plan for Rail-Based MRT System Connecting Bhubaneswar, Khordha, Puri, and Cuttack | Odisha | 2024
Client: Delhi Metro Rail Corporation / Odisha Rail Infrastructure Development Limited

- Monitored field surveys and validated survey outputs to support MRT system master planning.
- Analyzed traffic survey data and prepared technical report inputs for planning recommendations.
- Coordinated with clients and stakeholders, presented technical findings, and reviewed planning proposals during project evaluation stages.

Detailed Development Plan for Dedicated Economic Corridor between Bhubaneswar and Puri | Odisha | 2024
Client: Odisha Bridge and Construction Corporation Limited

- Monitored field surveys and site activities to support corridor development planning.
- Conducted site assessments and alignment evaluations for proposed transport infrastructure improvements.
- Analyzed traffic survey data and prepared report inputs for corridor planning studies.
- Participated in client discussions and stakeholder consultations to review project requirements and alternatives.

Academic Project details

UG: 1) Rain water harvesting system: A Case Study and Designing for a Residential building.
2) Analysis and Design of Intze type water tank.

PG: 1) Analysis of Barriers and Solutions for Sustainable Inland Waterway Transportation in Kerala. (A KSCTSE Funded Project).

Education

PhD in Civil Engineering, IIT Kharagpur | 2024–2027 | CGPA: 8.24

M. Tech in Traffic and Transportation Planning, National Institute of Technology Calicut | 2021–2023 | CGPA: 8.15

B. Tech in Civil Engineering, Guru Ghasidas Vishwavidyalaya | 2017–2021 | CGPA: 8.46

Declaration:

I hereby declare that the above written particulars are correct and true to the best of my knowledge and belief.
